

Quality Policy

ASE S.p.A.'s mission is to become the world's premier company providing power generators and power distribution for aircraft and special vehicles for the Defense sector.

ASE S.p.A.'s pledges to comply with the requirements of the laws and regulations and with the needs of its customers and to pursue, monitor and update the Company's objectives in order to keep pace with both internal and external context changes, and with the expectations of the interested parties.

In support of its mission, ASE S.p.A. has established the following strategic goals:

- To develop and manufacture high-performing products and systems that ensure compliance with the laws and regulations and conformance to the technical and contractual requirements, while achieving concomitant business profitability.
- To maintain a high quality standard in the products and services offered.
- To increase its share in the markets of interest to the Company, and look to new and emerging markets

ASE S.p.A. pledges to achieve these objectives via:

- Provision of resources, means and personnel appropriate to the activities to be performed.
- Motivation, participation and continuous training of personnel at all levels.
- Research, development and technological innovation.
- Development of quality and continuous improvement culture and its diffusion to all personnel.
- Use of analysis and risk reduction tools throughout all company processes in order to enhance robustness and effectiveness.
- Proactive and transparent development in customer relations.
- Collaboration with suppliers aiming at a joint development.

ASE S.p.A. pledges to ensure the continuous improvement of the Quality Management System and asks that all Company Functions contribute actively with dedicated initiatives. It assigns the Quality & Continuous Improvement Function the responsibility of monitoring the application of the Quality Policy, ensuring that it is distributed, understood, implemented and supported at all levels of the organization.

ASE S.p.A. pledges to periodically review the Quality Policy, ensuring it remains consistent with the general objectives, to distribute it, making it available both in-house and to other interested parties, and to support it with the necessary resources and means.
